

## Enphase QD Cable & Accessories

The **Enphase QD Cable** and accessories are integral parts of the IQ8 Commercial PV system for grid-tied, three-phase 208V PV applications.

The QD Cable works with the Enphase IQ8P-3P and IQ8H-3P Microinverters, providing self-phase balancing and neutral sensing for phase loss protection.

### Reliable

- Neutral sensing for phase loss protection
- Locking type connectors
- Rated for outdoor, wet environments, sunlight resistance, and oil resistance

### Easy

- Self phase balancing
- Lightweight and simple for fast installation
- Modularly expandable
- Reduction in balance-of-system costs and installation time
- Phase ID marked on QD cable connectors for easy identification (C1: L1-L2, C2: L2-L3 and C3: L3-L1 sequentially)
- Separate center feeding connector for maintaining <1% voltage rise with easy plug and play installations

### Field-Wireable Connectors

- Easily connect QD cables on the roof without complex wiring
- Available in male and female connector types
- UL listed
